

Indices of Multiple Deprivation by Output Area

Mapping the Indices of Deprivation provides an insight into the different types of deprivation experienced by local communities. Maps have been produced for all the Indices for Luton. Luton is also compared with its statistical neighbours.

Map 1: 2015 Index of Multiple Deprivation in Luton by LSOA

Luton has nine output areas in the top ten per cent most deprived areas in the country. Three of these are in Northwell, two in Farley and South wards and one in Biscot and Dallow wards.
